Innovation in global communication solutions

The challenges of your industry grow increasingly complex every day – and professional, timely communication is more crucial than ever. At CLS Communication we offer a comprehensive range of language solutions and services optimised with precision-engineered processes and innovative language technologies. And our established international presence means you can rely on our full range of services 24 hours a day.

CLS Communication has outstanding industry-specific expertise in the following industries: banking and finance, life science, insurance, consultancy, legal, telecoms, and selected other sectors. Our language specialists meet linguistic standards of the very highest level and work within a state-of-the-art secure IT environment.

A dedicated team will manage your project throughout the product cycle using a range of language technologies to ensure you receive a first class product and that all deadlines are met.

ONE PROVIDER, A HOST OF SERVICES

The services we offer include all aspects of corporate communication. As your single source for language services, CLS Communication can design and manage all aspects of a project, or you can simply avail yourself of one of the individual services we offer. By letting us take care of your communication needs, you benefit from our centralised expertise and can focus on your core business.

UTILISING TECHNOLOGY FOR OPTIMUM QUALITY

Our services are supported by a range of state-of-the-art language technologies. Let CLS Communication's IT professionals help you apply technology to your advantage.

- CLS e-Trans – our online ordering tool
- CLS Project Hub – a web-based collaboration platform
- CLS Terminology – access to a wealth of terminology in multiple languages
- CLS Machine Translation – translations at the touch of a button
- CLS Translation Memories – company-specific databases

IN-DEPTH SPECIALISATION

Do you need a proficient language partner who is familiar with developments in your industry? At CLS Communication, our language professionals have in-depth sector knowledge, gained through direct professional experience and ongoing training. As one of the leading global language service providers based in Europe, we deliver a wide variety of specialist texts for major firms in all key industries.
